

## CONCRETE CYLINDER MOULDS

### FEATURES:

- LARGE CAM OPERATING HANDLE
- FULLY SERVICEABLE CAM LOCKING MECHANISM
- AUSTRALIAN MADE

CIVILAB range of concrete cylinder moulds have been developed for superior reliability in the rugged Australian concrete industry.

Fully Australian made in a variety of styles.

The "Billy Can" handle which incorporates a cover plate that slides away for filling and is always attached. You can't lose it.

The Welded handle style – comes with a loose cover plate – just a matter of personal preference.

The "Clip on Lid" Preferred by some has a bayonet style connection and a machined recess in the cover plate

All moulds feature Civilab's unique cam operating handle which has plenty of room to get your fingers in comfortably to open the mould. The handle mechanism can be adjusted and is completely removable for servicing and/or replacement as required.
